SALICYLIC ACID

is a beta hydroxy acid with phenomenal sebum regulating properties. It's ability to penetrate the pores and exfoliate them from the inside makes it exceptional for minimising blockages preventing new blemishes from developing.

LIPO-AMINO

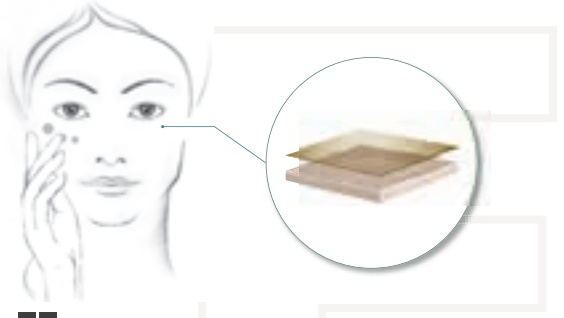
DAILY 4-STEP ROUTINE FOR HER & HIM

ACHIEVE THE VERY BEST RESULTS WITH YOUR SKIN CARE SET

■

CLEANSE - PREPARE TO ABSORB

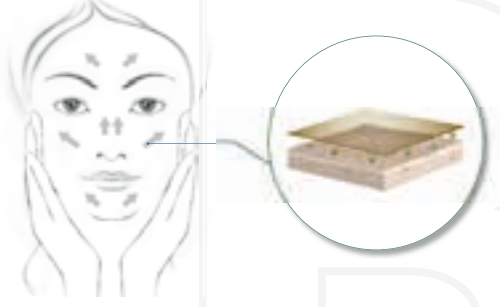
Cleansing your skin morning and evening removes impurities for good skin health and creates perfect conditions to absorb the rest of the products in your routine.



■■

EYES - FOCUS ON THE EYES

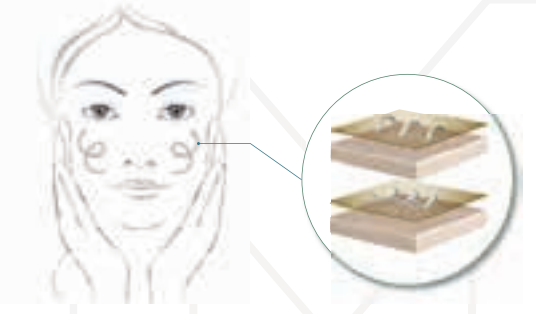
Eye creams have lighter textures, are fragrance free, and specially formulated to target the unique needs of the eye area like lines, puffiness and dark circles.



■■■

BOOST - ACTIVATE THE POWER

Serums are the booster of your routine. The fluid texture of serum is designed to deliver its hydrating and youth-preserving actives quickly and efficiently, before you apply your day or night cream.



■■■■

MOISTURISE - REPLENISH & PROTECT

Day and night creams provide the final layer of active ingredients together with moisturisation. The day cream is designed to help hydrate and protect your skin, while the night cream is designed to restore and replenish while you sleep.
